

Corran IPS

Larne

Corran Integrated Primary School and Nursery Unit first opened its doors to the children of Larne in September 1991. After months and months of campaigning, the school started off in Stylux industrial estate, with the P.1 and P.2 classes almost full.

Within a year, the classes moved to a beautiful site overlooking the Antrim plateau and Drain's Bay. We are working very closely with the Department of Education on plans for a permanent, state of the art building located on that same beautiful site.

Over the years the school population has steadily grown, easily filling the temporary classrooms to capacity! The school currently consists of seven primary classes and a nursery unit.

Everyone's favourite addition to the school grounds is our Caterpillar Garden: an allotment plot for every class to share. The Parents' Council provided outstanding help to create and maintain this garden along with very valuable assistance from local businesses.
