

[Lough View IPS]

Belfast

Lough View Integrated opened in 1993 with around 25 pupils. Housed in a building that was once home to the fledging Lagan College, the school rapidly gained momentum and began to grow.

Today the school has over 400 pupils and works in conjunction with nearby neighbour Lagan College, to provide parents in East Belfast and beyond with a high quality, integrated choice.

Lough View has many strengths, foremost amongst which is a commitment to the concept of the 'outdoor classroom.' The school resides on a generous , green field site which has been developed to include a nature trail , wildlife garden, allotments, poly-tunnel and pond. All of these features are used to promote connected learning and make the curriculum come alive!
